

A PEEK INTO OUR WEEK

A MESSAGE FROM MORAH TEITZ

Who can really reach גדלות? The תורה's answer is, everyone!

In this week's פרשה the תורה mentions אהרון's name before משה's, to teach us that אהרון was as great as משה. How is this possible? Wasn't משה רבינו the greatest נביא who ever lived? The answer is that אהרון lived up to 100% of his potential, just as משה did.

We too, can live up to our potential and bring out the גדלות inside ourselves! It's all about גדולה this year at BYC!

As we celebrate mid-year, we are so proud of our תלמידות's גדלות in learning and מדות טובות!

Happy Birthday!

גדולה באמת

When Reb Yaakov was a sixteen-year-old yeshiva bochur he was learning in the great yeshiva of Slabodka in Lithuania, Europe. The boys in the yeshiva would eat their meals in the homes of the different families. In those days traveling wasn't easy like today, and many boys stayed in yeshiva for Pesach. Reb Yaakov was invited to eat by a family that he did not feel comfortable with their standards of kashrus. Reb Yaakov did not want to embarrass the host so he told them he couldn't eat by them because he did not eat gebrochts on Pesach. Many families with Chasidic background have a minhag to not eat gebrochts on Pesach. Reb Yaakov's family was litvish, they were not Chassidism. Most litvish families, like his, did eat gebrochts. While Reb Yaakov made a statement so as to not embarrass someone he also was very makpid with only saying the truth. Reb Yaakov made sure that his words were true and from then on he never ate gebrochts again. Later when he had a family he did not impose this on his family, his children ate gebrochts since it wasn't his family's minhag but he, himself never ate gebrochts again. He never wanted his words to have even a tinge of sheker. Even if it meant doing something he did not have to. Even if it meant changing his minhag. For him the most important thing was to know that his words were אמת.
