## A Message from the Menahel

ואהבת לרעך כמוך... זה כלל גדול בתורה

This week we began our 4 week "Kamocha" program.

The theme this year is גדלות. When we learn about our Gedolim we see that they not only were גדולים in their בין אדם לבחיור, they actually became גדולים through their greatness in בין אדם לבחיור!

Maybe this can be offered as a new understanding of the words of רבי עקיבא.

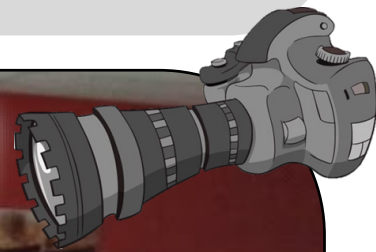

גדול בתורה is the rule (the כלל) in becoming a כמוך!

Now whom better to learn from then our very own choshuve Rebbeim. Each Rebbe led their class in a respectful discussion to identify a בין אדם לבחיור goal that they as a class could improve on.

The discussions were a קידוש שם שמים and the follow through has been a קידוש שם שמים!

May we be zoche to see true גדלות from each of our dear talmidim!

## Great Work!

Mordechai Simcha

4/2

Hello, it's me, your friend the traffic light. You pass every day to your chores. Do you want me to tell you what I was thinking yesterday? Great! Yesterday I was thinking if any big trucks would come, but by the end of the day no big trucks came, not even one! I was sad. I really wanted to see a big truck, even one! I was tired of seeing plain cars. It was really hard to fall asleep that night. I ended up falling asleep at 11:31. But the next day at 2:09 I was in for a surprise. I saw a big truck! I was extremely happy. That night I fell asleep easily. That's my story. The end.

Fill in the blank

rubies are red  
bats live in a cave  
lemons are sour  
strawberries are covered in chocolate  
and berries are yummy  
and cherries are bright

# Happenings Around the Cheder

Learning about גדלות in בין אדם לחבירו!

Enjoying JUMBO ices, celebrating גדלות in בין אדם לחבירו!

Learning about cycles from a pepper and its many, many seeds!

1st Grade made a bag out of recycled paper!

Learning about ladybugs in 2nd!

Wow, that was heavy! Understanding the amounts of water Rivkah Imeinu carried to provide for Eliezer and his camels!

# 7th Grade Trip to Mirrer Yeshiva!

*Chizuk and brachos from the Roshei Yeshiva!*

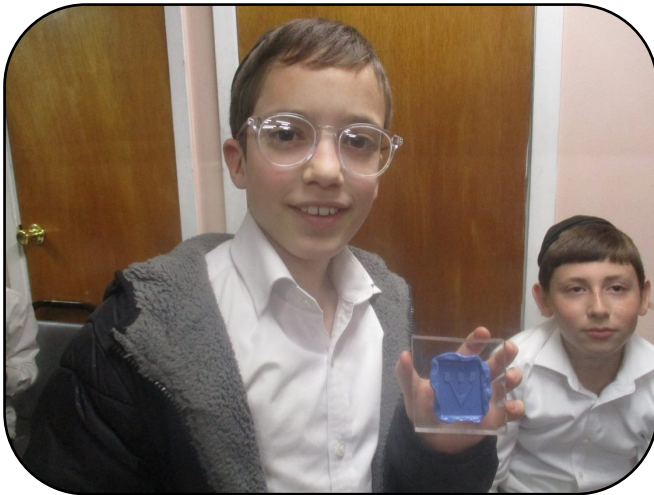

# 7th Grade Trip to the Battim Macher!

From a hide to tefillin and how to check פרשיות too!

# 4th Grade Mitzva Cycle Trip!

Our 4th grade personally delivered important food items to stock the Bikur Cholim room in a local hospital and made a HUGE 'קידוש'!!

## Points from the Principal

During our cycle assemblies we discussed the plant cycle of a red pepper. We tend to draw cycles like circles, with one stage leading to the next. But did you know that we counted a pepper to have more than 300 seeds? That's over 300 future plants! And each pepper plant can have about 10 peppers! That's over 3,000 peppers coming from 1 pepper! (We planted a bunch!) The circle became a spiral.

Mitzvahs work the same way.

The 4th grade brought food from our food-drive to the Shabbos room in a hospital thinking they were just bringing food, so that those doing the mitzvah of bikur cholim could have what to eat.

In actuality, the presence of a group of respectful and polite boys out to help their community made a kiddush Hashem for the hospital staff... a whole different mitzva!

We are loving watching cycles grow!
