

# CHEDER CHESHEK

*Your peek at how Chinuch and Cheshek go hand in hand*

## A Message from the Menahel

Miracles are exciting to talk about.

Really they happen for us to think about.

When the miraculous מן came down from שמים, Hashem's השגחה in providing sustenance was clear.

To express appreciation, משה רבינו composed the first ברכה of ברכת המזון.

The ברכה beautifully expresses our appreciation to Hashem for sustaining the world with kindness. We proudly recognize that every living creation benefits from Hashem constantly providing for their needs.

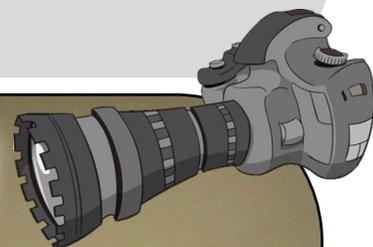

Yet when we read the ברכה carefully, it does not mention the מן at all!

With this משה רבינו taught us a great lesson.

A miracle is not meant to talk about, rather to think about. Once we think about a miracle, we recognize the "natural miracles" that surround us every day and start talking about them!

Now that's worth talking about!

## Picture of the Week!

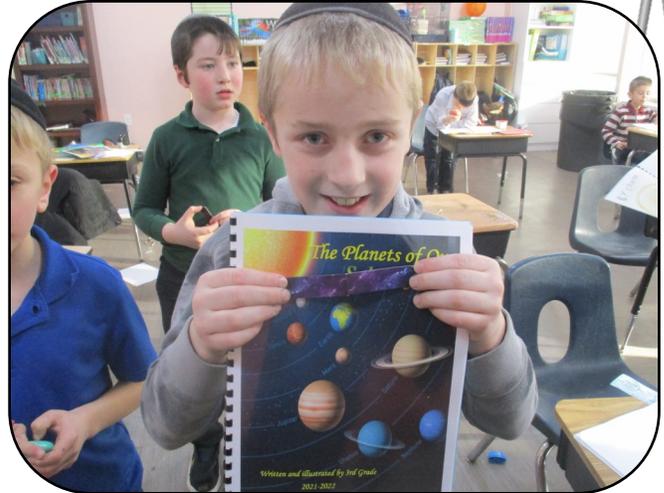

*Our new Cheder Bentchers Club is a HUGE שמים שם קידוש every day!*

There was a principal who wanted peace. He allowed the kids in the school to eat a piece of cake. He threw appartly and passed out candy. He said aloud "I have't done this in the past but let's break all the rules!! The students stomachs leaped into their mouths with joy. They ran through the balls and they did not step on the brake.

There was a town in the past that had a principal that passed by the brakes shop every day and threw brakes everywhere. The principal had a lot of peace. She was allowed to throw the brakes. When she threw the brakes, she skreamed aloud and the noise went through the shop and it went blacked the shop windows. A big piece of glass went flying. That was her principle. She cried to herself "These brakes must be special they're extra strong and they have rubber in their center."

Moshe Aharon Shapiro and Simcha Buckstein (4th) wrote spelling word stories filled with homophones!

## Points from the Principal

Gym has so many benefits. Physical movement, game instruction, and teamwork are all skills that are taught and practiced within the context of some drills and a game. Yet Rabbi Hollander and the 7th and 8th graders go beyond these basic benefits. Gym is another opportunity to teach the middos which are so important to learn. In the real life situation of a competitive game, the boys are taught first and foremost that middos matter. The boys are taught how to win and how to lose, and a high-5 after the game celebrates a job well done.

Have a wonderful Shabbos!
