

# CHEDER CHESHEK

*Your peek at how Chinuch and Cheshek go hand in hand*

## A Message from the Menahel

עם לבן גרתי - ותרתי"ג מצות שמרתי

Yaakov Avinu emphasized that he kept the 613 mitzvos even while with Lavan.

In fact, Yaakov could **not** have kept all 613 mitzvos, especially outside of Eretz Yisroel.

What Yaakov meant was that he deeply desired to keep all the mitzvos and fulfilled each one to the best of his ability. Whether by learning about the mitzvah or yearning for the time he could fulfill it, Yaakov was able to say תרתי"ג מצות שמרתי.

Yaakov's aspirations even became his reality as he returned to Eretz Yisroel and was able to do so much more.

A visit from a גדול בתורה helps us formulate our own aspirations.

It inspires us to yearn and work towards higher levels of Torah and Yiras shamayim.

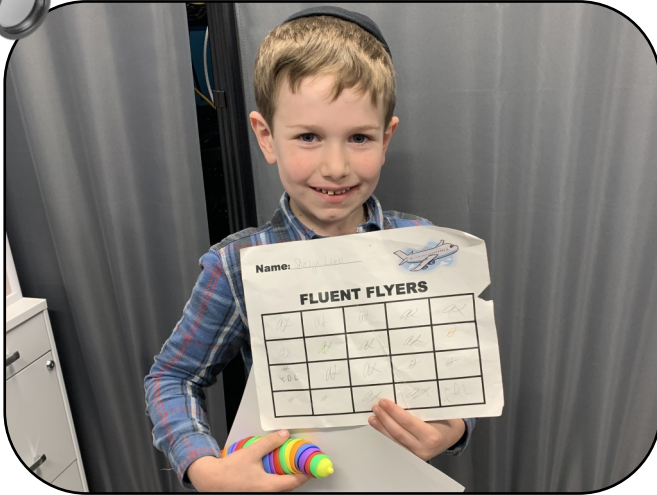

May we all continue to preserve these aspirations and may they become our reality, בס"ד!

## Picture of the Week!

# Happenings Around the Cheder

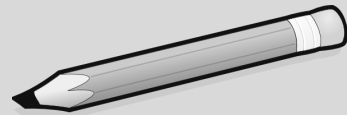

A fluency flyers chart completed!  
Great job, Shmaya!

Recorders in 4th! Thank you, Rabbi Hollander!

## Great Work!

### Constellations

By Moshe Shimon Dubin

I decided to research constellations. If you are lost don't forget to follow the constellations. Hold on tight for some fast facts about constellations.  
 Sorry I can't hold it together. Constellations are when stars form shapes. Constellations are not in the solar system. Constellations are shapes created by stars. Here is one famous constellation, the big dipper. Constellations don't always look like what they are. Now, you can understand your surroundings. I'm researching constellations because they are pretty. Some constellations look like they circle the north star. I hope you think they are pretty.

### Get Ready To Visit a Cold Planet

By Shmuel

I chose Neptune. Do you think Neptune is cold? Get ready for a cold adventure.

Let's learn more about Neptune. Neptune is dark blue. Neptune is one of the gas giants. Like any other planet Neptune has thirteen moons. Now, you know what Neptune is like.

I researched planet Neptune because I wanted to go. Neptune takes 165 Earth years to revolve around the sun. I hope you enjoyed learning.

3rd culminated their unit study with essays on space.  
(Moshe Dubin & Shmuel Weitzman)

# Happenings Around the Cheder

Using Jell-O to experience the עבודה done with the דם on יום כיפור in 5th!

קבר רחל colored and 3-D decorated their pictures of קבר רחל!

Pre1a began an exciting new Tehillim program!

Pre1a starts their "menorah construction"!

Parsha Rebbe teaches Pre1a that "Torah and Tefilla are our weapons!"

1st Grade doing an exciting "cloud making" experiment!

# Rav Shalom Kamenetsky שליט"א Visits the Cheder

## Points from the Principal

New data compiled by 4th grade... shoe sizes range from size 1 to 7!

A couple of students mimicking their teacher by making their own graphs

Classes writing... from beautiful finger spaces to first essays ever!

Hearing "That was the best game ever!" after a 3rd grade GYM class

Aha! Moments... such as finally understanding even vs. odd numbers!

Suggestions... from special recess book clubs to ideas for weekly challenges

Have a wonderful Shabbos!

- Mrs. Gilden

### Coming Up...

Dec 3 — Hacholas Mishnayos (3rd)

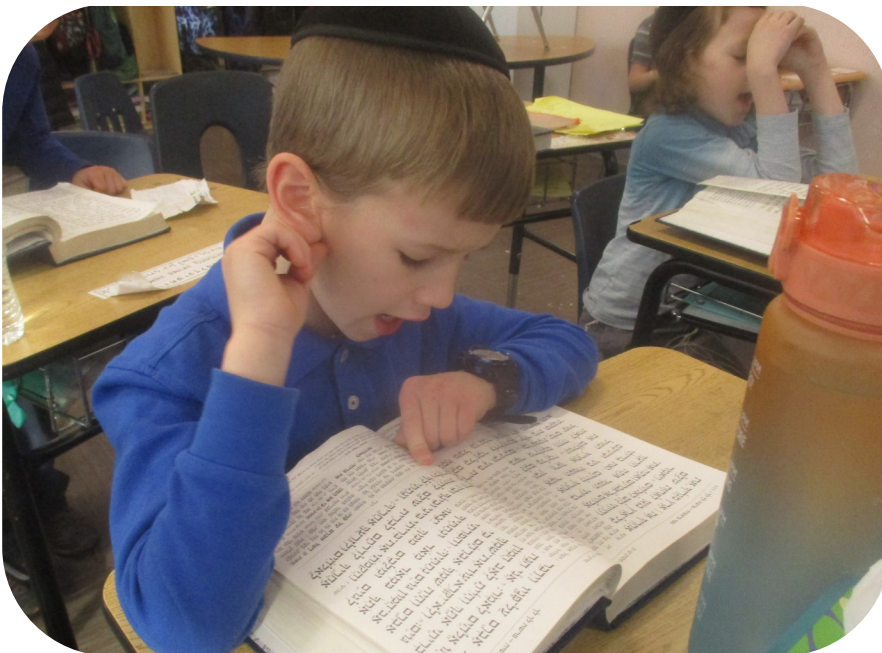

Dec 3-6 — Masmeidei Hamoed

Dec 7 — Moed-A-Thon

Dec 7 — כונה וקדושה בתפילין Breakfast

### Mazal Tov!

- Rabbi Selengut, Naftali and family on Yosef's Bar Mitzvah!
- Nesanel Pincus and family on his Hanachas Tefillin!

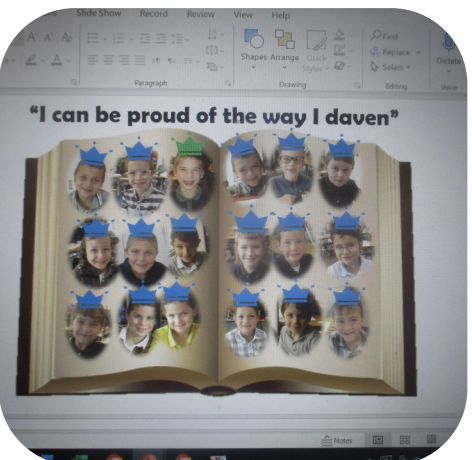

### Schedule Reminder:

Monday, Dec 4: GS In-Service: 4pm Dismissal (B5-B8). Boys After Care: Regular Sessions

Thursday, Dec 7: Chanuka: 4pm Dismissal (B5-B8). Boys After Care: No Sessions

Friday, Dec 8-Monday, Dec 11: Chanuka Break: No Sessions

# Ta'am Shabbos

## פרשת וישלח

מספר	חומש	מספר
כתה א'	פרק א, פסוק א - ג	פרשת בראשית
