## Learning Dedications

# The Power of Shviis

This anecdote took place in 5774, the year before Shemittah 5775.

One day, in the sixth year prior to Shemittah, a bochur entered the Bnei Brak home of Rav Chaim Kanievsky. He came with a letter from a senior Marbitz Torah in a European community who was suffering from painful

leg ailments. The agony was unbearable. The talmid chochom wrote in his note that he undertook to examine his deeds in an effort to find an area in which he was perhaps failing spiritually. With his feet smarting, he wondered why Heaven had decreed for him to experience such immense discomfort. Coming up empty in his search for something specific to focus on, he asked Rav Chaim for advice on what to do so that his intolearable pain would subside.

After expressing his wishes for the Rov's Refuah Sheleimah, Rav Chaim advised, "Tell him to learn Shviis."

"He should learn Mishnayos Shviis?" asked the bochur to clarify.

A grandson of Rav Chaim who was present responded, "Yes! The Rov is saying

that he should learn the Mishnayos of Maseches Shviis."

Rav Chaim interjected.

"No. Not only Mishnayos," he said, "but also the sugyos in Shas on Shviis and the Yerushalmi, and the Rambam, all of it, whatever there is on

the inyan of Shviis."

Rav Chaim was asked for his reasoning. He explained that the Torah relates that Hakadosh Boruch Hu promises to shower blessing upon those who heed the laws of Shviis, even in the sixth and eighth years of the Shmittah cycle. Rav Chaim advised that in the sixth year, when one studies the laws of Shviis, it is tantamount to actually fulfilling the laws of Shmittah. In this merit one will be blessed with the unique bracha that is promised to shomrei Shviis already in the sixth year.

Thus, the ailing European Rov was counseled to learn the inyanim of Shviis in order to garner the Heavenly blessing granted to Shemittah adherents.
