

A PEEK INTO OUR WEEK

A MESSAGE FROM MORAH TEITZ

גוטען חדש אדר!

Our תלמידות were introduced to our new החדש מידת באחריות-גדולה taking responsibility for our words and actions.

A knows she needs to get the job done right!

In this weeks פרשה, משה רבינו was told to build the ארון. The פסוק says, "ועשו ארון" - and they should make an ארון."

The building of the ארון was a joint effort amongst כלל ישראל. In פרשת ויקהל the פסוק says, "ויעש בצלאל את הארון." Why does it only mention בצלאל if all of כלל ישראל took part in the building of the ארון?

רש"י explains that בצלאל took the full אחריות to invest himself in this holy task of building the ארון.

He took the responsibility, so he gets the full credit.

At BYC our תלמידות deserve full credit for their טובות as they strive to take an אחריות to grow into responsible ישראל.

Happy Birthday!

גדולה באמת

אמת stands on 2 feet, שקר on one
 There's a way of saying אמת and still have fun
 It's better to say the אמת, never tell a lie
 It is a big עבירה, so don't even try
 Everyone will believe you and trust what you say
 If you want to borrow something, they'll always say ok
 If you say you'll repay someone in exactly a week and a half
 Then you have to do it right on time, if you do the math
 If you want to keep this מצוה and be a good Jew
 Then always say the truth and lies would be few!
