

# CHEDER CHESHEK

*Your peek at how Chinuch and Cheshek go hand in hand*

## *A Message from the Menahel*

This week was dedicated to jumping back into our beloved routines.

The period of time between פסח and שבועות has always been a time dedicated to preparing ourselves for קבלת התורה through strengthening our efforts in תורה, עבודה וגמילות חסדים.

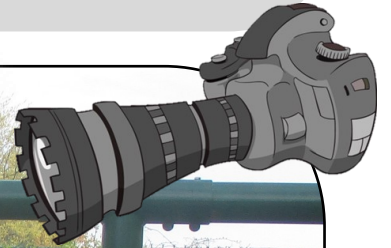

In order to be able to maximize these weeks, we need to be back in routine, well rested and happy!

In addition to resuming our beloved routines, the focus of this week's פרשה was a great springboard for working on our בין אדם לחבירו.

Understanding the power of words when relating to others is fundamental in creating and maintaining positive relationships with those around us.

May our efforts towards this years קבלת התורה be bentched with סייעתא דשמיא!

## Picture of the Week!

*Jumping right into learning, friends and geshmak! It is GREAT to be back!*

## Great Work!

### T. RAPE

Milk and meat, do not combining,  
even if it would taste so fine.

Hamburger and cheese, who would eat,  
while sitting on a orange seat.

Drinking milk alone,  
is the right thing to do, even while  
You're on the phone.

Six hours you wait, after eating  
meat,  
So cheesy you can eat.

Be glad You're eating from a cow,  
not eating any cat that would meow.

So, whenever you eat,  
remember to separate milk and meat.

### Mind Poem

By: Eliezer Seldowitz

Imagine if your mind would fall apart,  
You would have to put in some other part.

If you did not have a mind,  
You would have a lot to find.

You would put in a pan,  
Or maybe even a tin can.

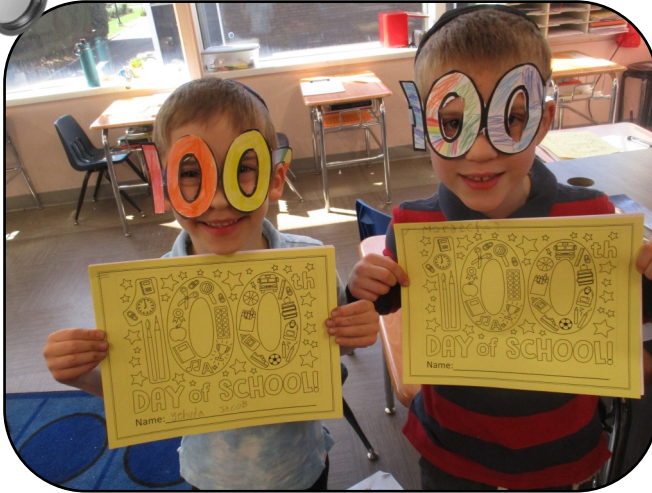

Be glad you have a mind,  
And not some other thing you find :)

Akiva Grossman & Eliezer Seldowitz (4th) wrote couplet style poems.

## Points from the Principal

Baruch Hashem there are so many cycles in the word! From weather cycles to life cycles, cycles provide predictability for us, creating room for improvement - either within ourselves or in our relationship with the world.

This week we became aware of the power of cycles, and kicked off our end-of-year unit. As we are learning about cycles in our individual classes, we are learning about the cycles of mitzvos together. Mitzvos lead to more mitzvos! We started a food drive for Bikur Cholim rooms in local hospitals, and are noticing all the mitzvos that this one mitzvah can lead us to.

Thank you for all the donations already brought in, keep up the great work! Please see the flier for recommended items - tizku l'mitzvos!
