

# The Preschool Peckelach

בס"ד

Dear EC Parents,

It's been an incredible couple of weeks since the last Preschool Pekelach edition. With Parsha each week, comes so much learning (and doing!). Each of our talented Morahs takes the time to plan an enriching week that nourishes our precious little kinderlach in so many beautiful ways. Last week, each of the classes could be seen packing bags and pretending to be Avraham Avinu who recognized Hashem at a tender young age! The message of the Avos is clear—we believe and trust in Hashem!

This week, each class created special ohels, both for art projects and also for dramatic play inside the classroom; where they could actually pretend to be Avraham Avinu and Sarah Imeinu. The excitement in our classes is electric and everyone is learning middos and mitzvos both through the lens of the parsha and also through their Moros—who truly emulate what they teach! It's certainly precious to see our young kinderlach learning Torah in such pure and engaging ways! I have tremendous hakoros hatov to each and every Morah!

The culmination of our week of course is Erev Shabbos Kodesh, and this week is no exception—especially with all the orchim that were invited to each class! Enjoy the nachas and have a great Shabbos!!

*Morah Basya Malka Levit :)*

Avi Dubin and Rachael Rothenberg are Shabbos Tatty and Mommy in Nursery 2!

Mazel Tov the Eisenberg Family (Menucha—N1 and Dovid Mordechai—K2) on the birth of a baby boy! May he be a source of tremendous Yiddishe Nachas to your family and all of Klal Yisroel!!

Circle time in our K1 and Toddler classes!

Learning through play and budding friendships in Nursery 1!

Reading is certainly a most essential part of our day! First picture on the left is Morah Yocheved reading to the Aftercare Alef Group! Class made books are a special part of each class' curriculum. By the time they come home, even our youngest students can "read" their books with simcha! A copy or two of each class book is always available in each class' library!

**Cooking is a terrific learning experience in our EC! We measure, scoop, pour, roll and shape! Cooking is a science and full sensory experience! Not to mention delicious!!**

**Building friendships, healthy fresh air and gross motor development are all part of outdoor fun each day! Please remember as the weather gets colder, we will continue to play outdoors. Please dress your child for the weather!**

# ARTIST of the WEEK

Eli Freundlich N2

Ella Hurwitz T

Levi Manheimer K2

Tova Ness K1

Yosef Shalom Stimmel N1

Some of our strong Kindergarteners helping bring supplies for the elementary boys in Rabbi Kagan's absence. We are so so very capable and always willing to do a chesed!

Parents are invited to join in our EC class birthday parties! Most classes bake for the special day and celebrate with singing, games and fun!! If you'd like to donate a book or toy to your child's class in honor of their birthday, please be in touch with your child's Morah!

Happy Birthday
