Points from the Principal

Top 3 reasons why I always insist students need to show their work.

3. If a mistake is made, we can see what was done and help them get it right the next time
2. It's important to be aware of our work! The process is so important, and helps clarify the strategies we are using, helping to build stronger connections.
1. There are so many ways to do work. The way each student does it, shows how they think, and that it worth celebrating!

The process, the way we think, is the best part of it all. Each student is incredible!

Have a wonderful Shabbos, I can't wait to see you!
