

# CHEDER CHESHEK

*Your peek at how Chinuch and Cheshek go hand in hand*

## *A Message from the Menahel*

The “simplest” gifts from Hashem are simply exhilarating and demand our appreciation!

At two of our Chodesh Kislev assemblies, we explored the great gift of food and how Hashem packaged ENERGY in food that looks good, smells good, feels good and tastes good!

The amount of energy in 3 little winkies can power approximately 36 jumping jacks of energy!

A little dum-dum lolly can power approximately 160!

That’s a lot of energy! Thank you Hashem!

The appreciation we felt for Hashem made us express ourselves further by proclaiming - I love you Hashem!

At the end of פרשת ויצא, Yaakov Avinu meets Malachim of Hashem and names his own camp מחנים.

The Ramban explains that the name מחנים - camps, was to show that the two camps focused on the same task. Both Yaakov’s camp and the Malachim focused on praising Hashem and recognizing His greatness.

With so many gifts to appreciate, staying focused on thanking Hashem is actually quite simple!

## Points from the Principal

Three of many moments that middos shine:

- 1) When a teacher finds a letter of appreciation tucked into papers on her desk
- 2) When a boy searching for headphones asks "did anyone take them by mistake?" Knowing it could only be accidental
- 3) When a video doesn't play and a boy shouts out "Hashem doesn't want us to watch it this time! Maybe tomorrow!"

Have a wonderful Shabbos!
